From the funds in Specific Appropriation 337, the nonrecurring sum of \$1,000,000 from the General Revenue Fund is provided for the completion of a study on the long-term capacity needs of the state and privately operated mental health treatment facilities. The study shall include an in-depth review and analysis of the state mental health treatment facility system with a focus on long-term sustainability. The study must compare the cost effectiveness of alternative methods of operating state mental health treatment facilities as well as alternative locations.

The study must consider at least the following options: (a) full outsourcing of state mental health treatment facility operations, including all staffing, food services, housekeeping, and environmental services using the current physical infrastructure; (b) full outsourcing of state mental health treatment facility operations, including all staffing, food services, housekeeping, and environmental services using a combination of the current physical infrastructure and a newly constructed facility; (c) maintaining the current method of oversight at state-operated facilities and constructing a new building, all operated by the state.

The study must compare costs in each model, identify implementation considerations, and project transition timelines. All options must provide a detailed breakdown of the department's staffing needs and explanations for staffing levels, including calculations used for staffing estimates, and take into account projected future court-ordered commitments and the associated impact on facility waitlists. For option (a), the age and condition of existing structures must be a key consideration. Options (b) and (c) must consider the ideal location for a new facility to maximize recruitment abilities and contemplate the effect of the new building on the waitlists.

The department shall submit the study to the chair of the Senate Committee on Appropriations, the chair of the House Appropriations Committee, and the Executive Office of the Governor's Office of Policy and Budget by January 1, 2024.

From the funds in Specific Appropriation 337, \$7,701,252 in nonrecurring funds from the General Revenue Fund are provided for the transition to Electronic Health Records for civil and forensic mental health treatment facilities. Of these funds, \$5,775,939 shall be placed in reserve. The Department of Children and Families is authorized to submit budget amendments requesting release of the remaining funds pursuant to the provisions of chapter 216, Florida Statutes. Release is contingent upon a submission of a detailed operational work plan and a monthly spend plan that identifies all project work and costs budgeted for Fiscal Year 2023-2024.

The department shall submit quarterly project status reports to the Executive Office of the Governor's Office of Policy and Budget, the chair of the Senate Appropriations Committee, and the chair of the House Appropriations Committee. Each report must include progress made to date for each project milestone, planned and actual completion dates, planned and actual costs incurred, and any current project issues and risks.

Funds in Specific Appropriations 1292, 1295, and 1306 are provided for the Biometric Identification Solution Modernization Project. Twenty-five percent of the funds shall be released at the beginning of the first quarter of the fiscal year and the remaining funds shall be placed in reserve. The Department of Law Enforcement is authorized to submit budget amendments requesting release of the remaining funds pursuant to the provisions of chapter 216, Florida Statutes. Release is contingent upon the submission of a detailed operational work plan and a monthly spend plan that identifies all project work and costs budgeted for Fiscal Year 2023-2024. After the initial release of funds during the first quarter of the fiscal year, the agency shall submit quarterly project status reports for the remainder of the fiscal year to the Executive Office of the Governor's Office of Policy & Budget, and the chair of the Senate Appropriations Committee and the chair of the House Appropriations Committee. Each status report must include progress made to date for each project milestone, deliverable, and task order, planned and actual completion dates, planned and actual costs incurred, and any current project issues and risks.
